DETAILED ACTION

Response to Arguments

1. Applicant's arguments with respect to claims 1-18 have been considered but are moot in view of the new ground(s) of rejection.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 1-18 are rejected under 35 U.S.C. 102(b) as being anticipated by WO 96/22149 (Hoke et al).

Hoke et al disclose a method comprising the step of exposing a catalyst material comprising manganese or an oxide of manganese to a continuous flow (See page 21, lines 18-23) of an ambient temperature gaseous composition having a substance that deactivates the catalyst material. (See page 7, lines 1-13). The catalyst material can be cryptomelane and may contain catalyst materials such as palladium and platinum (See page 9, lines 7-30; and page 34 to page 39).

The process can be carried out from 200 hours to up to 1700 hours (see page 87, lines 19-27; and Figure 15).

The “accelerated catalyst aging” will be inherently provided in Hoke et al method once the catalyst material is exposed to the ambient air gaseous composition continuously.

No difference is seen between the instantly claimed invention and Hoke et al disclosure.

Conclusion

4. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
